

STONE FIXING MARBLE BRACKET CLAMP

Short Description (Beside Product Image)

Precision engineered bracket clamp designed for fixing and supporting marble, stone, and façade panels in construction and architectural installations. Manufactured from high-strength steel or stainless steel with corrosion-resistant finishes to ensure durability and reliable load support in indoor and outdoor environments.

Product Overview

Stone Fixing Marble Bracket Clamps are used for secure anchoring and alignment of stone or marble slabs in façade systems, wall cladding, and architectural structures. The bracket design allows adjustable positioning and firm holding of stone panels while transferring load safely to the supporting structure.

Canco Fasteners manufactures marble fixing brackets according to industry requirements or customer drawings, supporting OEM programmes, distributor supply, and export orders.

Quick Specifications

Material Options

Carbon Steel

Stainless Steel (AISI 304)

Stainless Steel (AISI 316)

Other grades subject to customer specification

Surface Finish Options

Electro-Galvanised (Zinc Plated)

Hot-Dip Galvanised

Powder Coated

Plain / Self-Colour

Passivated (for stainless steel)

Size Range

Available in multiple sizes suitable for various stone and marble thicknesses. Custom dimensions can be manufactured based on project drawings or specifications.

Customisation Availability

Custom bracket dimensions

Material grade changes

Special surface treatments

Private-label packaging

Bulk export configurations

Technical Specification Sheet

Product Description

Adjustable metal bracket clamp used for fixing marble, granite, or stone panels in façade cladding and structural decorative installations.

Components

Bracket body

Adjustment slot plate

Stud bolt / anchor bolt

Hex nut and washer

Manufacturing Process

Precision cutting and forming of steel plates

Machining of slots and holes

Thread rolling / machining of studs

Controlled finishing and coating process

Material Grades

Mild / Carbon Steel

Stainless Steel 304

Stainless Steel 316

Other materials available upon request

Surface Finishes

Zinc plated

Hot-dip galvanised

Powder coated

Passivated stainless steel

Custom coating available upon request

Dimensional Control

Manufactured to strict dimensional tolerances as per approved technical drawings or project specifications.

Testing & Inspection

Dimensional inspection

Thread verification

Surface finish inspection

Material certification (EN 10204 3.1 available upon request)

Typical Applications

Stone façade cladding systems

Marble wall fixing

Granite panel support

Architectural stone installation

Installation Note

Proper installation requires correct anchor selection, load consideration, and alignment according to structural engineering specifications.

Export & Packaging

Loose cartons

Palletised loads

Private-label cartons

Bulk export quantities

Canco Fasteners manufactures stone fixing marble bracket clamps according to approved standards or customer drawings. Products are available for OEM programmes, distributor supply, and containerised export shipments.
