

# CAN TOGGLE ANCHOR

## Short Description

Heavy-duty Toggle Anchor designed for secure anchoring in hollow walls, drywall, and cavity applications. The toggle mechanism provides strong holding power by spreading behind the base material when installed.

## Product Overview

The CAN Toggle Anchor is a mechanical fastening solution consisting of a threaded bolt and spring-loaded toggle wings. Once inserted into a pre-drilled hole, the wings expand behind the hollow surface, ensuring a firm and reliable hold.

Manufactured by Canco Fasteners to strict quality standards, this product is suitable for OEM programs, distributor supply, and bulk export requirements.

## Quick Specifications

### Material Options

- Carbon Steel
- Stainless Steel (AISI 304 / AISI 316)
- Other grades upon request

### Surface Finish Options

- Zinc Plated (White / Yellow)
- Hot-Dip Galvanised
- Plain / Self Colour
- Custom coatings available

## Size Range

Available in multiple diameters and lengths.

Typical sizes: M4, M5, M6, M8, M10 (custom sizes available).

#### Standards

Manufactured as per industry standards or customer drawings.

#### Customisation Availability

- Custom dimensions
- Material grade modifications
- Special coatings
- Private-label packaging

☑ Technical Specification Sheet

#### Product Description

Spring toggle anchor for use in hollow walls and cavity fixing applications.

#### Components

- Threaded Bolt
- Spring Toggle Wings

#### Manufacturing Process

- Precision stamping of wings
- Thread rolling
- Assembly and finishing

#### Material Grades

- Carbon Steel
- Stainless Steel 304 / 316

#### Surface Finishes

- Zinc Plated
- Galvanised
- Custom finishes available

#### Testing & Inspection

- Dimensional inspection
- Thread checking
- Load testing (upon request)

#### Typical Applications

- Drywall fixing
- Ceiling installations
- Electrical fixtures
- Light-duty mounting in hollow sections

#### Installation Note

Drill a hole, insert folded toggle through the hole, allow it to expand behind the surface, and tighten the bolt.

#### Export & Packaging

- Bulk cartons
- Retail packaging

- Palletised shipments

Canco Fasteners manufactures Toggle Anchors as per approved standards or customer requirements.
